

ORGANIC SYSTEM PLAN – LIVESTOCK PRODUCERS

FARM BUSINESS NAME:	CERTIFICATION NUMBER (RENEWAL ONLY):
ORGANIC GROWER / PRODUCER NAME:	FARM LOCATION (COUNTY/STATE):

Section F. Livestock Health Care

[NOS 205.238]

Tip! Organic standards require livestock producers to establish & maintain preventative livestock health care practices. When preventative practices & veterinary biologics are inadequate to prevent sickness, a producer may administer synthetic medications allowed per Section 205.603.

Any medications administered, whether allowed or prohibited, must be recorded on an animal health record.

Withholding medical treatment from a sick animal is prohibited.

1. Indicate the components of your preventative livestock health care practices below. Check all that apply.

- | | |
|---|--|
| <input type="checkbox"/> Selection of species | <input type="checkbox"/> Reduction of stress |
| <input type="checkbox"/> Sufficient feed ration | <input type="checkbox"/> Freedom of movement |
| <input type="checkbox"/> Appropriate housing | <input type="checkbox"/> Vaccines |
| <input type="checkbox"/> Appropriate pasture conditions | <input type="checkbox"/> Biologics |
| <input type="checkbox"/> Sanitation | <input type="checkbox"/> Other: |
| <input type="checkbox"/> Exercise | |

2. Are animals subject to physical alterations? ☐ Yes ☐ No

2a. If yes, provide a description, including the species, type(s) of alterations, age when alteration done, reason for alteration and how pain and stress are minimized (ex.- dehorning, beak trimming):

Tip! List all inputs used in your preventative livestock health care plan, including vaccines, on the Material Inventory.

3. If an animal were to be treated with a prohibited material, describe your plan and/or current practice for removing this animal from the organic market:

ORGANIC SYSTEM PLAN – LIVESTOCK PRODUCERS

Tip! Maintain documents that verify that all animals treated with a prohibited material were removed from the organic market, and have available at your next annual inspection.

4. List your annual average percentage of culled (live) livestock: %
5. List your annual average percentage of death or loss: %
